

Dear Fcc,

My name is Mark DeNicolò and have been a subscriber to Xm for nearly a year now. I am upset to hear that the NAB is trying to limit some of the services they (XM) provide me. I pay for this service because regular broadcast has let me down, they play nothing but junk and commercials and what they want you to hear. What gives them a right to tell me what I want to hear!? Xm (and Sirrius) gives us a choice, and a better one at that. Maybe they should try and keep up instead of trying to lobby and bully XM. I enjoy the traffic and weather that I am provided on XM. I suggest if you do not have one, buy it and see the difference yourself. Please reject NAB's petition 04-160.

Thank You,

Mark DeNicolò
